

The Evangelical Alliance **Engage Project** invites you to join Drs Tom and Christine Sine for some eye-opening excursions into our new global neighbourhood. You will identify the growing pressures on time and money facing people in your church. They will also show you how you can enable people to live on purpose, creating less stressed, more festive lives; and discovering imaginative ways God can use their lives to make a difference in their communities and God's world.

Dr Tom Sine is a consultant in futures research and planning for both Christian and secular organisations. He works together with his wife Dr Christine Aroney-Sine, to assist organisations to evaluate how their world, nation and communities are changing so they can adapt more adequately to face the challenges of the 21st Century. Tom also works to help Christian organisations develop a holistic theology of mission. He speaks widely at colleges, churches, and missions conferences and leads creativity seminars for a variety of Christian groups. He is an adjunct professor for Fuller Theological Seminary in Seattle.

Perth - Thursday 24 April
